The Chance

Scrub

We're living in a constant fight
Too much pressure everywhere and all around
Don't let it put you down
Hold on tight, cling to your dreams
Don't you depend on someone else
Think for yourself and win the race
The chance you got comes never twice
Do your best and do it right
Time will come but don't you hide
You are on your way
You're led by God but you're not a pawn
Should live your life, don't care 'bout any scorn
Just let them fool around, no need to cry
Don't give up
Try to be as smart as you can be
I know you own so much ability
The chance you got comes never twice
Do your best and do it right
Time will come but don't you hide
You are on your way
The chance you got comes never twice
Do your best and do it right
The time will come but don't you hide
You are on your way
The chance you got comes never twice
Do your best and do it right
Time will come but don't you hide
You are on your way
