

# The Chance

## Scrub

We're living in a constant fight  
Too much pressure everywhere and all around  
    Don't let it put you down  
    Hold on tight, cling to your dreams  
    Don't you depend on someone else  
    Think for yourself and win the race  
The chance you got comes never twice  
    Do your best and do it right  
    Time will come but don't you hide  
    You are on your way  
    You're led by God but you're not a pawn  
Should live your life, don't care 'bout any scorn  
    Just let them fool around, no need to cry  
    Don't give up  
    Try to be as smart as you can be  
    I know you own so much ability  
The chance you got comes never twice  
    Do your best and do it right  
    Time will come but don't you hide  
    You are on your way  
The chance you got comes never twice  
    Do your best and do it right  
    The time will come but don't you hide  
    You are on your way  
The chance you got comes never twice  
    Do your best and do it right  
    Time will come but don't you hide  
    You are on your way
