

# Atmosphere (Dalton John remix) // FREE

## Kaskade

When I was young I would stand alone  
With visions of worlds that were all my own  
The lights in the sky weren't that far away  
Living in the vastness of outer space All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere  
Of all the waves in your atmosphere  
Of all the waves in your atmosphere When I was young I could hear the sound  
A melody pure and a rhythm loud  
Oh, this sound took me away  
Carried through the vastness of outer space All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere  
Of all the waves in your atmosphere  
Of all the waves in your atmosphere Of all the waves in your atmosphere  
Of all the waves in your atmosphere  
Of all the waves in your atmosphere  
Of all the waves in your atmosphere
