

Come Into My Head

Kimbra

It's no use were gonna have to fight
You're throwing words one thousand times
Like a child who can't empathize
You don't speak the language
you don't read my signs
You wanna know what I really think
You wanna know what I really believe
There's a fire burning up in here
See the smoke coming out of my ears
Oh, oh, we both know
More troubles gonna find us if we're all alone
I wanna show you what I really mean
But you're always on the outside looking in
Oh boy, come into my head
Come inside ride out in my head
Oh boy, come into my head
I just wanna have you looking around, hey!
I'll throw my hands on your binoculars
And every time you get shocked you learn
What it's like to be in my dimension
I'll be the center of your attention
Listen to what it says I do
The quiet parts and the crack in my style
Make your mark on my territory
Come live in its cavity
Oh, oh, we both know
More troubles gonna find us if we're all alone
I wanna show you what I really mean
But you're always on the outside looking in
Oh boy, come into my head
Come inside ride out in my head
Oh boy, come into my head
I just wanna have you up in my head
Oh want a piece of my brain?
Exotic and erotic at the drop of a dime
Oh want a piece of my brain?
Ecstatic and dramatic at the same time
Oh want a piece of my brain?
Exotic and erotic at the drop of a dime
Oh want a piece of my mind?
