

# Don't Hate Me

## Earshot

K', Mister Lonely, you don't know me anymore  
I bled for you, now bleed for me something more  
I've got a fire inside, from all your bullshit and lies in all your efforts to break me  
Look deep and on in my eyes, see the disgust in this voice  
Will you remember, will you remember? Don't hate me  
    When you're feeling alone  
        Don't hate me  
    Cause I got something you don't  
        Don't hate me  
    You will remember  
        Don't hate me  
When you freak out I'll pull the plug and take you under  
    Cut you like no other  
    'Till my dying day  
    'Till the day I die Baby, baby as I say  
    'Till I sense [alone?]  
Someday, day, day, will come the day  
    You will remember  
When you remember Don't hate me  
    When you're feeling alone  
        Don't hate me  
    Cause I got something you don't  
        Don't hate me  
    You will remember  
        Don't hate me  
When you freak out Don't hate me  
    When you're feeling alone  
        Don't hate me  
    Cause I got something you don't  
        Don't hate me  
    You will remember  
        Don't hate me  
    When you freak out Won't be long  
    'Till your world comes down in flames  
You lead, I followed, then you tried to take it all away  
    Tried to take it all away Tried to take it all away  
    Tried to take it all Don't hate me  
        When you're feeling alone  
            Don't hate me

Cause I got something you don't  
Don't hate me  
You will remember  
Don't hate me  
When you freak outDon't hate me  
When you're feeling alone  
Don't hate me  
Cause I got something you don't, don't, don't, don't, don't  
Don't hate me  
You will remember  
Don't hate me  
When you freak outOh yeah  
When you freak out, yeah  
Freak out  
Mmhmmm... Hmmmmm.. Mmhmmm... MmmHmm-mmm... Mmm...
