

Liberate

Slipknot

Liberate, my madness (one of me, all of you)
Liberate, my madness
I just want to,
Liberate, my madness (one of me, all of you)
Liberate, my madness! Section off myself
Put a wall up/what the hell have I done
Keep the dog at bay
Survive by saving me!
Values and the game
Not a fuck-up, not a part of your lie
I am one, I am all, I'm above and beyond! Stand off of the shit
Back off or I'll spit
So soft, you forgot
Your garbage in is garbage out
You don't give a shit
I won't play the fit
Get off, get on this
Your garbage in is garbage out
Liberate my madness
Liberate, my madness (one of me, all of you)
Liberate, my madness
I just want to
Liberate, my madness (one of me, all of you)
Liberate, my madness I am not ashamed
What is vital, isn't always humane
You can break in vain
But you can't break away
Even in my face
Lotta bullshit, not alotta the truth
I can't see from here
But I can smell your fear
Back off of the shit
Stand off or I'll spit
So soft, you forgot
Your garbage in is garbage out
You don't give a shit
I won't play the fit
Get off, get on this
Your garbage in is garbage out
Saved, you're such a slave, I don't expect a Name,
you don't care, I wasn't witness,
I can't be a part of a system such as this

Hard eyes, glow right, in my, darkness, again
With the sickness, renegade sisters, blisters,
Salivate, litigate, liberate, madness, sadness
Fuck this, how long have I had this?
I don't need this, outta my business
Insert, engage, betray, my godFraud
Fraud
FraudLiberate, my madness
Liberate, my madness
I just want to
Liberate, my madness
Liberate, my madness
