

See U In the Dark

Honor Society

You were always the girl
Who would give me girl advice whenever I needed it
My best friend in the world
My friends said you were fine but I was always denyin' it

Then one summer day
I saw you laying by your swimming pool
And I was thinking damn you really changed
You're not the quiet girl I used to know
You opened up my eyes

I see you walk across my room in
Nothing but the moonlight
Now I love to see you in the dark
(See You In The Dark)

My window frames you like a Monet
So don't come back to bed yet
'Cause I love to
See you in the dark
(See You In The Dark)

I'll never see you the same
The veil has been lifted, now I see you're gifted
My whole perspective has changed
Don't think I can't go back
'Cause I will always desire it

Don't take another step
Near me just in case we have regrets
If tomorrow we go back to being friends
I'll think about the way you looked tonight
So turn off all the lights

I see you walk across my room in
Nothing but the moonlight
Now I love to see you in the dark
(See You In The Dark)

My window frames you like a Monet

So don't come back to bed yet
'Cause I love to
See you in the dark
(See You In The Dark)

Maybe if you were someone else
It wouldn't have to be like this
I'm wondering how you feel about me now
Or was this just a friendly kiss
'Cause I'm seeing you for the first time

She pulls me closer to her body
As she whispers softly
Turn the lights off
See you in the dark (See you in the dark)

I see you walk across my room in
Nothing but the moonlight
Now I love to see you in the dark
(See you in the dark)

My window frames you like a Monet
So don't come back to bed yet
'Cause I love to
See You In The Dark
(See you in the dark)
