

Promise Land

Crimson Glory

Got a ragin' fever, losin' control
Got a wild desire burnin' in my soul
I'm hungry baby, hot on your trail
Gonna get to heaven, through the fires of hell
Through the fires of hell Come and take me to the promise land
Won't you give me all your love Come and take me to the promise land
Open your gates baby take me down
To the promise land Headin' for your garden, yeah I'm glory bound
Wanna dig my fingers deep in your sacred ground
Your sacred ground Come and take me to the promise land
Won't you give me all your love
Come and take me to the promise land
Open your gates baby take me down
To the promise land Take me to the promise land
Take me to the promise land
Take me, (take me higher)
To the promise land, (to the promise land)
Take me, (take me down)
To the promise land
Take me to the promise land Take me to the promise land
Take me to the promise land
Take me, (I'm on a mission)
To the promise land, (to get to you)
Take me, (this's a higher calling)
To the promise land, (the naked truth) Let me take you to the promise land
I wanna give you all my love
Let take you to the promise land
I will open your gates baby take you down
To the promise land Oh, take me down now - Take me to the promise land
Oh, to the promise land
Wanna dig my fingers deep - Take me to the promise land
In your sacred ground, yeah
