God Is In This Place

Plus One

I need to say that God is in this place
And God is right by your side
You need to know that anywhere you go
Just by faith His love will abideThe moment could be here and now
When you need someone to be there
Im telling you Hes reaching out
With love beyond compare and He knows your soul
And He knows your heart, knows everything you are, oh yesI need to say that God is in this place
And God is right by your side
You need to know that anywhere you go
Just by faith His love will abideEverybody stumbles gets lost along the way
But His mercy comes raining down with His amazing grace
Cause all that you need is just to believe
Hes waiting to set you free, oh yeahI need to say that God is in this place
And God is right by your side
You need to know that anywhere you go
Just by faith His love will abideEverybody pray 'cause God is in this place
And God is right by your side
You need to know that anywhere you go
Just by faith
