

# God Is In This Place

## Plus One

I need to say that God is in this place  
And God is right by your side  
You need to know that anywhere you go  
Just by faith His love will abide The moment could be here and now  
When you need someone to be there  
Im telling you Hes reaching out  
With love beyond compare and He knows your soul  
And He knows your heart, knows everything you are, oh yes I need to say that God is in this place  
And God is right by your side  
You need to know that anywhere you go  
Just by faith His love will abide Everybody stumbles gets lost along the way  
But His mercy comes raining down with His amazing grace  
Cause all that you need is just to believe  
Hes waiting to set you free, oh yeah I need to say that God is in this place  
And God is right by your side  
You need to know that anywhere you go  
Just by faith His love will abide Everybody pray 'cause God is in this place  
And God is right by your side  
You need to know that anywhere you go  
Just by faith
