

Demons

Armagedda

I'm calling you to me
Hear my words in your mind
Hear me speak without tunes
From the endless worlds of fire I have found you
I'm now the tormentor of your soul
Wherever you may hide
I will turn light for you to darkness Ancient spirits
Created by evil
Follow my voice I can see destruction from a different side now
When the demons have drowned my mind
You can't hide in the darkness
If you don't belong to it
