

# Ravenous

## Danko Jones

I was lost like a child in the night  
I couldn't tell ya wrong from right  
I know they say it can never come true  
But it was love at first sight  
Everybody's talkin' 'bout you, you're a big commotion  
You're like the ocean, you're all around me, baby  
I need to know you will always care  
'Cause when I fell I felt you there but you held on to me  
'Cause I, I found my legs when you stood by my side  
The air around you makes me high  
'Cause I'm ravenous for your love  
I got back up when you held out your hand  
The more you see you understand  
That I'm ravenous for your love  
When I met you my feelings grew  
What in the world was happening to me?  
You made it right, you brought me back in the light  
You made this deaf dumb blind man see  
I though I'd never meet anyone like you  
But when I did you felt it too  
'Cause I, I found my legs when you stood by my side

The air around you makes me high  
'Cause I'm ravenous for your love  
I got back up when you held out your hand  
The more you see you understand  
That I'm ravenous for your love  
But if you ever want out I won't stand in your way  
That's not what I'm about 'cause I need you  
I'll be there when you need me around  
The choice is yours of course I need you to stay  
Without you I'm lost, with you I'm found  
But you should know that my love will never end  
From far away your honor still I'll defend  
I've got it bad for you my heart you can take and break  
Again and again and again  
'Cause I, I found my legs when you stood by my side  
The air around you makes me high  
'Cause I'm ravenous for your love

I got back up when you held out your hand  
The more you see you understand  
That I'm ravenous, ravenous for your love
