

# Night In The City

[Joni Mitchell](#)

Light up light up, light up your lazy blue eyes  
Moon's up nights up taking the town by surprise  
Night time night time day left an hour ago  
City light time must you get ready so slow  
There are places to come from and places to go  
Night in the city looks pretty to me  
Night in the city looks fine  
Music comes spilling out into the street  
Colors go flashing in time

Take off, take off, take off your stay-at-home shoes  
Break off, shake off, chase off those stay-at-home blues  
Stairway, stairway down to the crowds in the street  
They go their way looking for faces to greet  
But we run on laughing with no one to meet  
Night in the city looks pretty to me  
Night in the city looks fine  
Music comes spilling out into the street  
Colors go waltzing in time
