Miracles

Dovid Pearlman

Do you close your eyes
And stop for a minute
Just to imagine a scene
Come take a walk
And see yourself standing
In a beautiful garden serene

See the vibrant rose
As it comes to life
Smell the orchids--
White like snow
A breathtaking picture
Perfection beyond your dreams

One closer look
Catch every detail
Watch every panel with care
A dazzling array
Of countless bright colors
Each one is special and dear

And as the softest rain
Flutters to the ground
To awaken a sleeping world
Now the secret of its beauty
Soon unfolds

Chorus:
There's this feeling that takes hold of me
As I'm drawn into the this picture
Into this scene
And suddenly I seem to find
My place in Your design

Like every sunset
Brings another sunrise and
Every winter fades away
Into the spring
And there's a whole new world each day

There's a whole new world in me

So when I open up my eyes
I'll sing to you
The wonder of the world renewed each morning
For each breath of life
I'll sing to you
There's something new to see
In every dawning

I'll praise in my own way
For Your light shines on every day
As I'm learning how to see all your miracles unfold

And with the Rising Sun
My soul has wings
I'm grateful for this chance
You've given me to
Lift up my own voice in harmony
To join as one in all your of Your creation

Singing for eternity
Reflecting Your Glory
As I'm learning how to see all your miracles unfold
