Put Back My Ring On Your Hand

Charley Pride

I had the world in my hand when you were in my arms
And our love seems to grow everyday
Then like a fool I wasn't true brought shame and hurt to you
Now the time has come for me to pay
Now the whole world is empty without you you're my life my dreams and my plans
I'll do anything to make it up to you and put back my ring on your hand
[fiddle]
There was a time I made you cry each time you said goodbye
And walked away leaving me all alone
I broke your heart hurt your pride and now you're not here by my side
Now I see I've done the same thing to me
Now the whole world is empty...
