

# Slow Motion

[Karina](#)

I know that you've been calling me  
And I'm happy that we met  
Don't think that I'm not interested  
I'm just playing hard to get So much about this crazy game they call love  
That I'm trying to understand  
So could you be my best friend  
Before you call yourself my man Why can't I love you in slow motion, take my time?  
Take away the pressure on my mind  
Really get to know you per rewind  
I wanna love you in slow motion, why can't I? You seem to know just what you want  
And I like your confidence  
Some things a girl should never rush  
Cause if you do you hurt yourself So much about this crazy game they call love  
I'm still trying to understand  
So would you be my best friend  
Before you call yourself my man Why can't I love you in slow motion, take my time?  
Take away the pressure on my mind  
Really get to know you per rewind  
I wanna love you in slow motion, why can't I? I'm too young for tears in the night  
And it's too soon for this to be right  
Don't wanna mess with your pride  
The questions not when but Why can't I love you in slow motion, take my time?  
Take away the pressure on my mind  
Really get to know you per rewind  
I wanna love you in slow motion, why can't I?
