Lately

Jon B.

Pretty young thing, sexy young girl, I've been thinking about
How we use to share one world, but that's over now
Life without you just ain't life and it's killing me
'Cause we just walked away, turned our backs on the beautiful dreamI want you back 'cause I'm in need
I'm in need, all I need to know
Have you thought about me?Lately, all the trouble we use to get in my baby
Lately, in the back seat of my Benz now baby
Lately, we'll let the top drop, you'll get on top baby
Lately, have you thought about me, thought about me? yeahGirl I was wrong, so dead wrong with those things I did
How could I lie? How could I cheat? How'd you put up with it?
Just like L.L, man I need love but you're so far away
You put it on me, this player's so lonely, there's got to be a wayI want you back 'cause I'm in need
I'm in need, all I need to know
Have you thought about me?Lately, all the trouble we use to get in my baby
Lately, in the back seat of my Benz now baby
Lately, we'll let the top drop, you'll get on top baby
Lately, have you thought about me, thought about me? yeahWhat keeps me missing all that good love?
My psyche won't let me forget all the good love we made
Though we're worlds apart, I'm still buggin' on it latelyLately, all the trouble we use to get in my baby
Lately, in the back seat of my Benz now baby
Lately, we'll let the top drop, you'll get on top baby
Lately, have you thought about me, thought about me? yeahLately, all the trouble we use to get in my baby
Lately, in the back seat of my Benz now baby
Lately, we'll let the top drop, you'll get on top baby
Lately, have you thought about me, thought about me? yeahLately, all the trouble we use to get in my baby
Lately, in the back seat of my Benz now baby
Lately, we'll let the top drop, you'll get on top baby
Lately, have you thought about me, thought about me? yeah
