Lately

Jon B.

Pretty young thing, sexy young girl, I've been thinking about

How we use to share one world, but that's over now

Life without you just ain't life and it's killing me

'Cause we just walked away, turned our backs on the beautiful dreamI want you back 'cause I'm in need. I'm in need, all I need to know

Have you thought about me?Lately, all the trouble we use to get in my baby

Lately, in the back seat of my Benz now baby

Lately, we'll let the top drop, you'll get on top baby

Lately, have you thought about me, thought about me? yeahGirl I was wrong, so dead wrong with those things I did

How could I lie? How could I cheat? How'd you put up with it?

Just like L.L, man I need love but you're so far away

You put it on me, this player's so lonely, there's got to be a wayI want you back 'cause I'm in need I'm in need, all I need to know

Have you thought about me?Lately, all the trouble we use to get in my baby

Lately, in the back seat of my Benz now baby

Lately, we'll let the top drop, you'll get on top baby

Lately, have you thought about me, thought about me? yeahWhat keeps me missing all that good love?

My psyche won't let me forget all the good love we made

Though we're worlds apart, I'm still buggin' on it lately Lately, all the trouble we use to get in my baby

Lately, in the back seat of my Benz now baby

Lately, we'll let the top drop, you'll get on top baby

Lately, have you thought about me, thought about me? yeahLately, all the trouble we use to get in my baby

Lately, in the back seat of my Benz now baby

Lately, we'll let the top drop, you'll get on top baby

Lately, have you thought about me, thought about me? yeahLately, all the trouble we use to get in my baby

Lately, in the back seat of my Benz now baby

Lately, we'll let the top drop, you'll get on top baby

Lately, have you thought about me, thought about me? yeah
