

Around The World

Christina Aguilera

Oh oh oh

Ah ah ah

Oh oh oh

Whoaaa

Tonight I'm going to get so wild exotic, yeah

Baby, let's explore

Imagine all the things we can do in one night, yeah

Everything and more

So tell me, tell me

Where you really wanna go

And gimme, gimme

What I'm asking for

From city, city

International love

Take me all around your globe

Hollywood to Japan

Tokyo to Milan

Baby, just for tonight

We're making love worldwide

Brazil to Ibiza

Baby, just wanna please ya

Baby, just for tonight

We're making love

All around around around

And all around around around

And all around around the world

We're making love

All around around around

And all around around around

And all around around the world

We're making love

We can talk dirty in a different language

(Voulez vous coucher avec moi ce soir)

Or we can get erotic on a distant voyage

Baby, sit back and enjoy the ride

Imma take you places you aint been tonight

From city, city

International love

Take me all around your globe

Hollywood to Japan

Tokyo to Milan

Baby, just for tonight

We're making love worldwide

Brazil to Ibiza

Baby, just wanna please ya

Baby, just for tonight

We're making love

All around around around

And all around around around

And all around around the world

We're making love

All around around around

And all around around around

And all around around the world

We're making love

Let me show you love

Baby, let's go

Puerto Rico or go to Congo

Or we can take it down to the islands, or the Highlands

You already know, oh

It's whatever baby, it's just me and you

It's whenever baby, just a ticket for two

Freak you 'round the globe, from day to night

You know how we do, making love worldwide

Hollywood to Japan

Tokyo to Milan

Baby, just for tonight

We're making love worldwide

Brazil to Ibiza

Baby, just wanna please ya

Baby, just for tonight

We're making love

All around around around

And all around around around

And all around around the world

We're making love

All around around around

And all around around around

And all around around the world

We're making love

We're making, we're making, we're making love

We're making, we're, we're making, we're making love
