

Step Inside

The Grapes

Step inside and steal some time
Hide and seek is on your mind
Think you'll find your destiny
Shallow grave is all you'll see
There's raindrops around
All darkness, no sound
Your lips swell and fine I'll let you in my mind
A kiss for the night
The black widow's now inside
I now know your dreams ain't what they seem
But I'm watchin' when you close your eyes, cos I can see your lies
Did a lady try to sleep tonight, the devils got your eyes
Step inside and steal some time (steal some time)
Hide and seek is on your mind
Think you'll find your destiny (destiny)
Shallow grave is all you'll see
Step inside and steal some time (steal some time)
Hide and seek is on your mind
Think you'll find your destiny (destiny)
Shallow grave is all you'll see
There's no phone talk today
Maybe you're out to play
Hungry for the next to play your game
But I'm watchin' when you close your eyes, cos I can see your lies
Did a lady try to sleep tonight, the devils got your eyes
Step inside and steal some time (steal some time)

Hide and seek is on your mind
Think you'll find your destiny (destiny)
Shallow grave is all you'll see
Step inside and steal some time
Hide and seek is on your mind (hide and seek is on your mind)
Think you'll find your destiny
Shallow grave is all you'll see
(One day you'll find)
(I'll come for your mind)
But I'm watchin' when you close your eyes, cos I can see your lies
Did a lady try to sleep tonight, the devils got your eyes
Step inside and steal some time (steal some time)

Hide and seek is on your mind
Think you'll find your destiny (destiny)
Shallow grave is all you'll see
Step inside and steal some time (steal some time)
Hide and seek is on your mind
Think you'll find your destiny (destiny)
Shallow grave is all you'll see
Step inside and steal some time (steal some time)
Hide and seek is on your mind (hide and seek is on your mind)
Think you'll find your destiny (destiny)
Shallow grave is all you'll see
Step inside and steal some time (steal some time)
Hide and seek is on your mind (hide and seek is on your mind)
Think you'll find your destiny (destiny)
Shallow grave is all you'll see
