Silence

Deepfield

Was it something that we did
to turn your back on us forever
And yeah that would be unfair

Is this what you wanted
The silence so deviling it hurts
If you ever listened
Then you would hear it for yourself

Was it something that we did
To give us light and never guide us
To which direction we should go
And we need a miracle
Something biblical
So come down and take it out on us

Is this what you wanted
The silence so deviling it hurts
If you ever listened
Then you would hear it for yourself

Is this what you wanted
The silence so deviling it hurts
If you ever listened
Then you would hear it for yourself

And nothing says you love us quite like judgment
And nothing says you hear our cries quite like silence
I've see enough of this in a lifetime
To know that I can make a difference
Then I guess I'll make a point

And I will repent
When the snake has bitten through my skin
And the poison has set in

Is this what you wanted
The silence so deviling it hurts
If you ever listened

Then you would hear it for yourself

Is this what you wanted
The silence so deviling it hurts
If you ever listened
Then you would hear it for yourself

Hear it for yourself
Hear it for yourself
