

Living Dead

Edane

Everytime you walk through shadow light, you're right
Every time you breath another life, you're right
Now i know all the choice is yourswe're the living dead, you're the living dead
i'm the living dead, we're the living deadevery diamond casts an open light, you're right
everytime you walk through shadow light, you're right
now i know all the choice is yourswe're the living dead, you're the living dead
i'm the living dead, we're the living deadlove your soul, trust yourself
kill yourself, love your soulgive up yourself again
give up yourself again
give up yourself againwe are the living dead
we are the living dead
