

See You Tonight

[Scotty McCreery](#)

Girl, you know I love talkin' to you on the phone
I could listen to your sweet voice all night long
Sometimes I can get by with a "Sweet dreams baby, goodnight"
But this time, well I don't wanna spend it alone[Chorus]
So, I'm comin' over, I hope it's alright
Listen for me pullin' into your drive
Look out your window, you'll see my lights
Baby, girl I gotta see you tonight
The way the breeze is blowin, blowin'
You got me wishin' I was holdin', holdin'
On to you so tight under that porch light
Girl, I gotta see you tonight, tonight, tonight
Girl, I gotta see you tonight, tonight, tonight I gotta couple hundred pictures of your pretty face
On my phone, on my dash, all over the place
But I would drive a million miles
Just to see that little smile in real life
Baby, it's worth the drive
You're worth the drive[Chorus]
So, I'm comin' over, I hope it's alright
Listen for me pullin' into your drive
Look out your window, you'll see my lights
Baby, girl I gotta see you tonight
The way the breeze is blowin, blowin'
You got me wishin' I was holdin', holdin'
On to you so tight under that porch light
Girl, I gotta see you tonight, tonight, tonight
Girl, I gotta see you tonight, tonight, tonight No, I don't care what time it is
I just gotta get a little moonlight kiss
Girl, I can't help it when I feel like this
There's only one thing to do
Baby, I'm missin' you[Chorus]
So, I'm comin' over, I hope it's alright
Listen for me pullin' into your drive
Look out your window, you'll see my lights
Baby, girl I gotta see you tonight
The way the breeze is blowin, blowin'
You got me wishin' I was holdin', holdin'
On to you so tight under that porch light
Girl, I gotta see you tonight, tonight, tonight

Girl, I gotta see you tonight, tonight, tonightGirl, I gotta see you tonight
