Bellyful

Craig Cardiff

kristen built a tiger in her belly like a baby let it out every night to sing
she said all of her wisdom passion and glory didn't amount to anythingthese days mothers and sons fight frequently over different things
when really its all the same thing, that's what i've been trying to get you
to get you to get you to understand how do you hold onto holding on?
saying how do you hold onto holding ondays turned into nights turned into days turned into nights
and it was all you could do to make it go away
(i said) kristen built a tiger in her belly like a baby
let it out every night to sing she said all of her wisdom passion and glory
didn't amount to anythinghow do you hold onto holding on?
saying how do you hold onto holding on
