

# Dusty Road

## Missy Higgins

I never told you, I don't know why  
But all those years and all those lies  
Cling to my body like oil and fire  
And they will not sleep, they will not tire So we have a problem, you see, my dear  
'Cos I can't move on and I can't stay here  
I gotta fix it, I need your tears  
But mostly now I need your ears See, I gotta tell you, I need you to know  
You were my ruin when you took hold  
You made me believe the lies you told  
But you won't get away with the pride you stole  
Getting off this dusty road Girls never tell you, I don't know how  
But sometimes, men, you abuse your power  
We are strong and we do rebound  
But bruising tends to break us down So I gotta tell you, I need you to know  
You were my ruin when you took hold  
You made me believe the lies you told  
But you won't get away with the pride you stole  
Getting off this dusty road And I'm trading in my sympathy for sanity  
So hear me because I gotta tell you, I need you to know  
You were my ruin when you took hold  
You made me believe the lies you told  
But you won't get away with the pride you stole  
Getting off this dusty road
