Deity

Manikin

I remember it completely
And yet I can't recall any sunrise before it
I watched the whole magnificent of the dawn
For the last times as if it where the first
And then I said farewell to sunlight and set out to become, what I became
Down down down
God three times in me
More than useful
Bring me down where I
Deserve to be

The fear in your eyes
Like seeing your fate unfold before you
But nothing, nothing can save me from your vampiric love
Drink the blood
Sink your teeth into me
For the first and last time
Do you like
The pain it brings?
The fear in your eyes
Like seeing your fate unfold
Before you
