

# The Big Sky

Kate Bush

They look down  
At the ground missing  
But I never go in, now I'm lookin' at the big sky  
I'm lookin' at the big sky now  
I'm lookin' at the big sky  
You never understood me, you never really tried That cloud, that cloud  
Looks like Ireland  
Come on and blow it a kiss, now Quick, 'cause it's changing in the big sky  
It's changing in the big sky, now  
We're lookin' at the big sky  
You never understood me, you never really tried This cloud, this cloud says Noah  
Come on, build me an ark  
And if you're coming, jump 'Cause we're leaving with the big sky, baby  
We're leaving with the big sky, honey  
We're leaving with the big sky  
We're lookin' at the, we're lookin' at the And we pause for the jet  
Hup hup, hup, in the big sky  
We're lookin' at the big sky, honey You want my reply?  
Oh, what's the question? Yeah  
I was lookin' at the big sky Big sky, lookin' at the big sky  
Lookin' at the, tell 'em, sisters Rolling over like a big big cloud  
Walking out in the big sky  
Rolling over like a big big cloud  
Walking out in the big sky Rolling over like a big big cloud  
Walking out in the big sky  
Rolling over like a big big cloud  
Walking out in the big sky Rolling over like a big big cloud  
Walking out in the big sky  
Rolling over like a big big cloud  
Walking out in the big sky
