

# Sugar - Lost Kings Remix

## Wild Culture

I saw you out by the pool on the 8th of July

    Didn't think much about it at the time

    Didn't know that i'd have to cross this line

        Didn't know

        Didn't know

    I remember the guy who lost his pants

        Took a hit then we laughed

            Then we danced

            Now i'm around you

        And I don't trust my hands

            Help me out

    Help me outUuuuuu sugar you're so sweet

        Sweet to me

    Uuuuuu sugar you're so sweet

        Sweet to me me me

    I can't think about anybody but you

    Sugar, I can't think about anybody but you, you, you

        I can't think about anybody but you

Sugar, I can't think about anybody but youTake your time work it out with a bottle of wine

        Give a word

        Give a wink or

            Give a sign

        Let me know

        Before I loose my mind

            Let me know

            Let me know

    How far do you think that this could go

    Would you sign your name with an X or an O

    We could rush it or we can go slow, go slow

    Uuuuuu sugar you're so sweet

        Sweet to me

    Uuuuuu sugar you're so sweet

Sweet to me me meI can't think about anybody but you

    Sugar, I can't think about anybody but you

        I can't think about anybody but you

    Sugar, I can't think about anybody but you
