Moonshine

Rajiv Dhall

Friday night being alright
You know I'm chilling
But you got me missing you by my side
With the boys getting crazy yeah wild
But the party don't start till your lips on mine

Hit me up when you get up work
I got a place I wanna show you by the river side
Me you, you know what the do
To dance wanting to get swaying in the headlights

Yeah I just wanna dance tonight
Spinning round and round my crazy little girl
Flying up like fireflies in the moonlight baby
Let me rock your world
Got this feeling, wanna feel it all the time
Yeah your love's got me feeling got me tipsy
Girl you make my moonshine

Turn the radio down, I'll get my guitar out
Let me sing you that song, you got me thinking about
This night is for from over, so we're all on get closer
Me you, you know what to do, back seat for two
Got me switching off the headlight

Yeah I just wanna dance tonight
Spinning round and round my crazy little girl
Flying up like fireflies in the moonlight baby
Let me rock your world
Got this feeling, wanna feel it all the time
Yeah your love's got me feeling got me tipsy
Girl you make my moonshine

Yeah, I could live this night forever
Cause I'm just downing it me better
You, me that's all I need
Take it slow, turn it up, no matter me, no
This rhythm is almost over
So me no need come on get closer, to me

Those eyes are all I see

Yeah I just wanna dance tonight
Spinning round and round my crazy little girl
Flying up like fireflies in the moonlight baby
Let me rock your world
Got this feeling, wanna feel it all the time
Yeah your love's got me feeling got me tipsy
Girl you make my moonshine
