

# Let's Do It Together (Album Version)

## Blue Six

life can be hard  
light before darkness  
and things you thought were certain  
come undonefriendships turn cold  
    lovers grow old  
    and people make excuses  
    for what's gone baddrivers run dry  
        tears that won't cry  
    and pleasures you could count on  
        turned to dustgovernments lie  
        politicians tire me  
    and nothing on my television's  
    getting any betterwe'll find another way  
    you don't have to be alonelet's do it together  
        let's do it together  
    let's do it togetherthis time won't be the same  
    i'll be with you all alonglet's do it together  
        let's do it together  
    let's do it togetheryou are, you are the one
