The Trouble I Love

Comeback Kid

So here I go again
We had our chance
Half smile, you look my way
Run now and some might sayWe all die alone
We all die alone
We all die alone
And I'll never forget what killed usShe screams to be alone
Going over it in my head
What's left?
What's left to say?We all die alone
We all die alone
We all die alone
Can we ever take back the nights?The nights we wasted on another fight
Does this really all end tonight?
Does this really all end tonight?
This is the restThis is the rest of our lives
(Alone)
Can we ever take back the nights?
(Alone)
Does this really all end tonight?
(Alone)Take back our nights
Take back our nights
Take back our nights
Take back our nights
