

Solipsist

The Mistake

Here in the dark, dizzy from the stars that light your face?
The winter makes you shake, let me be the warm
place? 'cause I burn with the fire of a lifetime waiting for you
If nobody sees you, do you exist?

Don't ever fall in love with a solipsist.

If you're falling to pieces, can she make you whole?

If nobody sees you break will you fix it on your own?
You burn through the film in shades of the sunrise,

I am the moon, ablaze in the first light
I've been watching their faces, I've seen through their eyes

Wandered through places where the desperate tell their lies

They pass like an ocean, over my skin

I've been holding my breath for years so they won't get in
