

# Starting Over

## Audio Adrenaline

Look at your face  
Doesn't shine the way it used to  
Look at your eyes  
They don't sparkle anymore Look what you've done  
You've ruined it for everyone  
Who told you that you had to lose your innocence I, I'm starting over  
I, I'm starting over Well, tell me how  
I get back to my childhood  
I used to think  
It was so naive, I was so naive Look what I've done  
I've ruined it for everyone  
I should've held on harder to my innocence I, I'm starting over  
I, I'm starting over It's never too late  
It's never too late  
For starting over Reclaim your innocence  
Start over  
Reclaim your innocence  
Reclaim your innocence  
Start over  
Start over (I can begin, yeah)  
I, I'm starting over  
(I can begin, again)  
I, I'm starting over  
(Starting over, starting over) It's never too late  
It's never too late  
For starting over  
(Starting over) Look at your face  
It doesn't shine the way it used to
