

Undead Army

Sinners Burn

10000 maggots
Eating their way through your brain
Makes you the perfect soldier
In the war against sanity
Zombie soldiers
Marching to the front
Armed to our teeth
Cannot be killed
The Zombie army recruits as they kill
One bite makes enemy to friend
With death as an allied
We slaughter everything in sight
This war cannot be lost
Sanity is already beaten
Like a plague the army is spreading
The time has come for the zombie-era
