Black Money

Culture Club

Do you deal in black money?
Do you deal in black money, do you deal in?
Do you deal in black money?
Do you deal in black money, do you deal in? Oh yeah
Fortunes find you cross out every emotion
Standing right behind a shadow of devotion
Somebody else's life cannot be mine
But when you love someone and they don't love you in return
When you love someone, you've got money to burn
Do you deal in black money?
Do you deal in black money, do you deal in?
Do you deal in black money?
Do you deal in black money, do you deal in? Oh
I believe that nothing could come between us
Magic potions, won't you save them for dreamers
Somebody else's life cannot be mine
But when you love someone and they don't love you in return
When you love someone, you've got money to burn
Do you deal in black money?
Do you deal in black money, do you deal in?
Do you deal in black money?
Do you deal in black money, do you deal in? Oh yeah
Give me some love but don't waste my time
(Oh, black money, yeah)
I'll love you again but you must be mine
(Oh ho, black money, yeah)
Give me some love but don't waste my time
(Oh, black money, yeah)
When you love someone and they don't love you in return
When you love someone, you've got money to burn
Do you deal in black money
Do you deal in black money, do you deal in, anytime? Yeah
Fortunes find you cross out every emotion
Standing right behind a shadow of devotion
Somebody else's life cannot be mine
But when you love someone and they don't love you in return
When you love someone, you've got money to burn
Do you deal in black money?
Do you deal in black money, do you deal in?

Do you deal in black money
Do you deal in black money, do you deal in? Oh yeah
Give me some love but don't waste my time
(Oh, black money yeah)
I'll love you again but you must be mine
(Oh ho, black money, yeah)
Give me some love but don't waste my time
(Oh, black money yeah)
Don't waste my time, oh yeah, black money
(Black money)
Black money
(Black money, yeah)
Black money, yeah
Black money, yeah
Black money, yeah
Black money, yeah
Black money, yeah
Black money, yeah
