

See It No Other Way

Slightly Stoopid

Me no see no other way but me no see no other way
One way me seeing is the righteous way
Me no see no other way but me no see no other way
One way me seeing is the righteous way Bounce with me, come real, take me
Follow some of them right on over to the right mental stylee
Keep me head above the water, they walking improper
Watch you children, they must be moron brotha First glance sight, they got to be shotta
Respect the icons, they are the trensetter
Bob Marley, Euroy, Peter Tosh and Bunny Wailer
How we come up me wonder, who some are who follow Me no see no other way but me no see no other way
One way me seeing is the righteous way
Me no see no other way but me no see no other way
One way me seeing is the righteous way Allow me a beat to follow I'll do this
How would it feel to meditate and I'll study from this
On the Billboard chart they'll bring back me hit
Give me the mic and run the track, the mister start a spit Tell them a Mr. Mutton time boy, they exit
Cartez sent them out with friend but them a hypocrite
Border line nigga, tell them don't cross it
How all don't me carrying a basket Me no see no other way but me no see no other way
One way me seeing is the righteous way
Me no see no other way but me no see no other way
One way me seeing is the righteous way Bounce with me, pound the floor, this entity is done
He has done so many things some man was done but then become
A man if he understand how the world runs
But you can't be ungrateful And now allow me a beat to follow I'll do this
How would it feel to meditate and I'll study from this
On the Billboard chart they'll bring back me hit
Give me the mic and run the track, the mister start a spit Me no see no other way, but me no see no other way
One way me seeing is the righteous way
Me no see no other way, but me no see no other way
One way me seeing is the righteous way and I just wanna living in the righteous way
I don't wanna be in the Babylon way
I don't wanna, [Incomprehensible]
I don't wanna move with the pagans down Tell me, tell me when you're ready for me
Tell me, tell me when you're ready for me
And I don't wanna no follow the Babylon way
I just wanna put myself into the righteous way, way Tell me when you're ready
(Tell me when you're ready to bend down on your knees and pray)
Tell me when you're ready

(Tell me when you're ready to bend down on your knees and pray)

Come in

I don't wanna living in the I don't see no other way, I don't see no other way

One way I see it is the righteous way

I don't see no other way, I don't see no other way

One way I see it is the righteous way
