Celebrity

Cavo

Washed up, strung out
Living in a black out
A world spinning out of control
Face down, messed up
Never gonna be enough
Just another part of the show
You finally fall away,
The lights are fading
You wear it on your face
The cracks are breaking
Oooo ooo ooo oooooo
So where's your Celebrity now?
Cause we're so lost without you
Where's your Celebrity now?
So out of control.
A million lights can change a life,
Oh how far you go,
Be careful what you wish for
Where's your Celebrity now? (Now!)
Bright lights, burn out,
Thanks for the hand out,
Selling every inch of his soul
Fake life, fake town

tired of the letdown
Chemicals are starting to show
The lights they fall away
The fall is never ending
You wear it on your face
The cracks are breaking
So where's your Celebrity now?
Cause we're so lost without you
Where's your Celebrity now?
So out of control
A million lights can change a life
Oh how far you go,
Be careful what you wish for
You just might get it, get it, get it
You used to make this for me

And now you take this from me!
So where's your Celebrity now?
Cause we're so lost without you
Where's your Celebrity now?
So out of control
A million lights can change a life
Oh how far you go,
Be careful what you wish for
You just might get it, get it, get it
