Haunted

Sense Field

Look at the past to see
No. I never wanted to
Think now
Think how it'd be
Everything that's haunted you
Anything that wanted to
There are no pictures in frames
None that I could find of me
Just memories up in flames
None I ever want to see
They don't mean a thing to me[Chorus]
Someone step in
Step in and break it up
Someone step up
Step in and make it stopA sign this time it's real
This is not a false alarm
Just know
How low you feel
When they don't mean you any harm
It's just the way some people are[Chorus:Repeat x2]Look at the past just to see
I never wanted
Think how it'd be
When everything's hauntedDon't break
Don't fake the deal
Keep the promise that you kept
They'll lie
They'll try and steal
Doesn't matter what they get
Give until there's nothing left[Chorus:Repeat x2]Look at the past just to see
I never wanted
Think how it'd be
When everything's haunted
There are no pictures in frames
None that I found
The world up in flames
It's not what I wantedLook at the past to see
I never wanted
A sign, a sign
This time it's real

And everything's haunted
Look at the past to see
I never wanted
A sign, a sign
This time it's real
And everything's haunted
