For You

James Otto

You could call me anytime and Id come running Id go to hell and back to rescue you Id give up my soul and everything I own If thats what you want Id do that for youOh, but now youre asking too much You want me to find somebody new Oh, I never thought Id say this but girl congratulations You found the one thing I cant do for youAsk me for forgiveness, girl youve got it If you dont love me what else can I do If this really is the end you wont see my face again If thats what you want Id do that for youOh but now youre asking too much You want me to find somebody new Oh, I never thought Id say this but girl congratulations You found the one thing I cant do for youYoull have to think of something else Cause theres no way to turn it off Im sorry girl, I cant fall out of loveOh, I never thought Id say this but girl congratulations You found the one thing I cant do for you You found the one thing I cant do for you
