

# I Guess I'll Miss the Man

Rachel Bay Jones

I guess I'll miss the man  
Explain it, if you can  
His face was far from fine  
But still I'll miss his face  
And wonder if he's missing mine  
He never smiled enough  
But though his words were gruff  
I liked his shy, sad glance  
I never told him so  
But then, I never got the chance  
Some men are heroes  
Some men outshine the sun  
Some men are simple, good men  
This man wasn't one  
This man  
Wasn't one  
And I won't miss his moods  
His gloomy solitudes  
His blunt and thoughtless style  
But please, don't get me wrong  
He was the best to come along  
In a long, long while
