

# Nightmare

## Mest

My heart is pounding  
From all of my surrounding  
Enemies are closing in  
In this nightmare I don't win  
No one left to trust  
Living in disgust  
The memory brings the start again  
As I suffocate, hang me out to dry  
I've been here before  
My twisted little nightmare  
It's recurring now  
I've been here before  
I've got my heart tied up  
Just like they wanted  
I guess I'll do this again  
My heart is breaking  
From the words you're saying  
This eerie feeling seems so strange  
Let me go, I need to change  
This love I confess  
This night seems endless  
Fill me up and drown me out  
As I suffocate, hang me out to dry  
I've been here before  
My twisted little nightmare  
It's recurring now  
I've been here before  
I've got my heart tied up  
Just like they wanted  
I guess I'll do this again  
My heart is breaking  
From the words you're saying  
I've been here before  
My twisted little nightmare  
It's recurring now  
I've been here before  
I've got my heart tied up  
Just like they wanted  
I guess I'll do this again
