

# Own Little World

## Celldweller

Naa, naa, naa, naa  
(We will never die)  
Naa,naa, naa, naa  
(my little world)

Mutual sight, mutual sound  
Mutual struggle, for shared ground  
It's safe to say, they'll try to take from me  
I'm just another one for them to break down

Steeped in denial of the daily grind  
Dream of a world for me and my kind  
It's safe in the alternative reality  
So stick your standards where the sun doesn't shine

They're for themselves, it doesn't matter what they say  
Promise the world they take it from you anyway  
They'll break you down making your vision fadeaway  
It's time to go: get outta my space

Welcome to a world where the air I breathe is mine  
Nothing to overwhelm me and nothing to cloud my mind  
Be anyone, do anything I'd ever want to try  
Time doesn't exist here, I will never die

(Own little world)  
(Own little world)

Explain the reasons, explain the rhymes  
It's not required, inside our minds  
It's safe to try, no need to justify  
Or take their guilt trip at the end of the line.

They're for themselves, it doesn't matter what they say  
Promise the world then take, your universe away  
They'll break you down making your vision fadeaway  
It's time to go: get off of my case

Welcome to a world where the air I breathe is mine  
Nothing to overwhelm me and nothing to cloud my mind

Be anyone, do anything I'd ever want to try  
Time doesn't exist here

Slip into a world where the air I breathe is mine  
Nothing to overwhelm me and nothing to cloud my mind  
Come with me into it and you know what you will find  
Time doesn't exist here, we will never die

Naa, naa, naa, naa  
(We will never die)  
Naa, naa, naa, naa  
(Nana naa)  
Nana naa, nana naa, naa  
Nana naa, nana naa, naa

(Our own little world)  
(Our own little world)  
(Our own little world)

They're for themselves, it doesn't matter what they say  
It's time to go: get out of my face

Welcome to a world where the air I breathe is mine  
Nothing to overwhelm me and nothing to cloud my mind  
Be anyone, do anything I'd ever want to try  
Time doesn't exist here

Slip into a world where the air I breathe is mine  
Nothing to overwhelm me and nothing to cloud my mind  
Come with me into it and you know what you will find  
Time doesn't exist here, we will never die

(Our own little world)  
(Our own little world)

We will never die
