

Steppa

Buju Banton

You a hear me selekta
A more music and less talk
I would a talk to the youth them worldwide But let me start from East
And forward out to the West side
Up top jungle all bout Zimbabwe, Angola
Hear me out Laawd Say you a badman fine
And you don't step and left your gun no time
Say them heartless and mean when them a step with them team
Now a white suit and tape from forsensic Weh mi say steppa, steppa a nuh petty thief steppa a nuh taker
Man nah step fi the worst man ago step for the betta
Step inna Great Britain step inna merry macka
Two degrees cold man a step when it hotta
No make no mistake confuse steppa with shotta
Man a step and survive shotta brain get splatta
If you think a lie ask big foot and fatta weh me say? I ask them
Say you a badman fine And you don't step and left your gun no time
Say them heartless and mean when them a step with them team
Now a white suit and tape from forsensic
Wire tap surveillance agents and snitch Step no time to linger man haffi move through quick
No shells left behind you better move well legit
Solid composure youth your head can't sick
Woman and pickney still off limit A steppa never tell his woman him secret
Whether you step in a private or inna public
