

# Shine On

## Vinyl Theatre

Open up ya eyes and watch the sunrise  
One part of me I've been made clear  
Love that goes spread all the world  
My love ya comes out of devotion  
To rule ya, spread to the world  
In strange town I'm on my mission  
Where we praise the day straight our way all the nation  
Let me be the love that comes form the sun  
Let me be your rainbow rising on  
Every single race out of space  
Will shine on, shine on  
Let me be the love that comes form the sun  
I wanna be your love light from above  
Shine on, shine on, shine on  
My love ya comes out of devotion  
To rule ya spread to the world  
In strange town I'm on my mission  
Where we praise the day straight our way all the nation  
Let me be the love that comes form the sun  
Let me be your rainbow rising on  
Every single race out of space  
Will shine on, shine on  
Let me be the love that comes form the sun  
I wanna be your love light from above  
Shine on, shine on, sh
