

First

Disbelief

welcome my first love, welcome my first love
try to reach me when I'm blind - I am blind, try to reach me
you - have to learn, free in mind, you - touch me now - now
welcome my first love, welcome my first love
try to reach me when I'm blind - I am blind, try to reach me
you - have to learn, free in mind, you - touch me now - now
try - to walk alone, so realize it,
love - I don't know
touch your lips, touch your mouth,
I want to break you down
this is my trip
I'll kill you, I'll rape you, I'll rape you
I'll kill you, I'll kill you
welcome my first love, welcome my first love
I'll kill you
good bye
