

Let Me In

Beatsteaks

Every time we talk it through
It doesn't get us anywhere
Every time we talk, we lose
We're getting nowhere Think about all that you feel
Think about all that you give
Think about all that we get Every time we look at things
It never seems to measure up
Every time we tore it down
We lost so much Think about all that I feel
Think about all that I give
Think about that we get
