

# Holy Bullshit

## Brain Failure

Sunshine if one day you will loose it what your other solution  
break down your car in middle of free way where's your destination  
holy bullshit holy bullshit look at my voice is all so broke holy  
bullshit holy bullshit look at this you're driving so slow laid back  
lying on your couch all the time watch your digital video disc  
show off your teenage tattoo it was hard to make decision holy  
bullshit holy bullshit look at me my voice all so broke holy bullshit  
holy bullshit look at this you're driving so show holy bullshit  
holy bullshit out of sunshine holy bullshit holy bullshit look  
at me my voice all broke holy bullshit holy bullshit look at this  
your car is broken down holy bullshit holy bullshit look at this  
you have to laid back holy bullshit holy bullshit look at this  
you're driving so slow holy bullshit holy bullshit
