

Fight for Our Love

Olivia Newton-John

I don't want to cry
I don't want to say goodbye
But I will if you won't fight for our love
It takes more than sayin' I love you
We need more than words to get us through
I need to feel that you will fight for our love
We have a history, a passionate story
But lately, we're more strangers than friends
All through the ages
Love really worth savin' has been battered and scarred
But it strengthened the heart and that's who you win the end
I just want to hold you close to me
How I miss the way we used to be
Don't let it die, let's you and I fight for our love
Oh, all through the ages
Love really worth savin' has been battered and scarred
But it strengthened the heart and that's who you win the end
I just want to hold you close to me
How I miss the way we used to be
Don't let it die, let's you and I fight for our love
Don't let it die, let's you and I fight for our love
