

# Endless Summer

DJ Cammy

It feels like paradise the world is closing in it feels so right,  
I start to fantasise bout what we're getting in coz now your mine,  
This is our time,

It's an endless summer boy I want you close to me,  
It's an endless summer we'll make love and we'll be free,  
It's an endless summer boy I want you close to me,  
It's an endless summer now it's time for you and me,

Kick in the bass I like it deep,  
I work night times I don't sleep,  
Strive to be the best I can,  
Don't judge a man two brothers,  
On the fourth wall when I bury mc double,  
Rhymes galore,  
I ain't no player I ain't no toy,  
And that's because I said so boy,  
The work is done money in my pocket,  
I heared the jam and I walked it,  
Shake that ass go bizerk,  
Don't just stand there like a jerk,  
Come on ask a lady take a chance,  
Now let me see you dance!

My heat beats stronger now,  
Now you're by my side I hold you tight,  
Please let me show you how,  
We'll grab a ray of light coz now your mine,  
This is our time,

Endless summer boy I want you close to me,  
In an endless summer,  
We'll make love and we'll be free,  
It's an endless summer boy I want you close to me,  
In an endless summer,  
Now it's time for you and me,
