

Leavin'

Jag Star

I fell asleep then I woke up from my dream yeah
I looked around but it wasn't what it seemed yeah
'Cause it's time for me to make a change yeah
'Cause it's time for me to rearrange yeah Something's callin' out from under cover and
I'm free now
I'm leavin'
Something's callin' time for some discoverin'
I'm free now
I'm leavin'
I'm leavin' I made a promise I'd be honest 'til the very end
I tried to be myself but you were still not listenin'
You don't notice me 'cause I don't fool around
I don't wanna be in your in-crowd (in your in-crowd) Something's callin' out from under cover and
I'm free now
I'm leavin'
Something's callin' time for some discoverin'
I'm free now
I'm leavin'
I'm leavin' Time to go...
Time to go...
So you don't know me very well right now
You try to change me and you stress me out
One day we'll find out this is all a phase
I am losing 'cause I've overstayed... Something's callin' me...
Something's callin' me... Something's callin' out from under cover and
I'm free now
I'm leavin'
Something's callin' time for some discoverin'
I'm free now
I'm leavin'
I'm leavin'
